DOWN IN THE MEADOW IN THE IDDYBIDDY POOFAM FEEL LITTLE FISHES AND A MAFISHIE TOO OFIMS

Yes folks, step right up. Just gather round and listen to what I have to tell you. Do you yearn for something new, something different? Are you tired of getting 'zines just so you can play in their games, and read their articles? Are you looking for that little something extra. Well folks, here it is!

I have here a copy of Brew And Reefer, the hottest thing to hit the Diplomacy scene since the invention of the stamp! The only, I repeat, the ONLY 'zine to be printed on marijuana impregnated paper. That's right, you heard me: Marijuana impregnated paper! All you gotta do is read it, roll it, and relax! No need to fumble around with seeds and stems ever again. No mess, no spillage, no telltale papers hidden in your underwear drawer.

Where can you get this, you ask? Just send check or money order to Roy Smith, 64 Addicks Road, Westwood, N.J., 07675. Please specify either original Columbian flavor, or new Home Grown flavor when ordering.

What? You want to know how much this will cost you? Typical Capitalist attitude! For a limited time only, this \$9.95 value is yours for just 1 1/4 per page plus postage. Conveniently delivered to your door once every four weeks, the F.B.I. and the U.S.P.S. permitting. For heavy users, multiple subscriptions are available. If you prefer not to do business on paper, the publisher can be reached by calling (201)-666-2887 any time of the day or night that he is home to answer the phone. No calls before 7, or after 11, please.

ALITHEMAFISHIEFIMIFYOUCANSOTHEYFAMANDTHEYFAMALLOVERTHEDANCOOPOOFDITAND

For those of you who are interested, I have lots of game openings. To play in a game, you have to send me a \$2.00 deposit (required), a preference list (optional), and not live in the same telephone area code as any of the other players already signed up (required, unless I am desperate to fill the game). Game openings are:

Novice game: 5, if you don't live in the 816 or 602 area codes.
 Regular game: 5, if you don't live in the 717 or 201 area codes.
 Expert, or all-Mensa game: 7, if you are alive, and either a Mensan or an expert Diplomacy players (2 separate games).

The novice game will feature commentary by an expert commentator, who will try to analyse the play and point out errors, or what he might have done in a similar situation, both diplomatically and tactically. Of course, this assumes I can find a suitable commentator. Any takers?

My Mailbox Overfloweth(from Craig Reges, 8-19-78): Dear Roy,

I am thinking of establishing an alliance with Alan Rowland: How far do you think I can trust him? Is he as bas as you say?

Craig

JOKE!! Oh, please don't toss me out!! Please, please!!

Hmm, well, who started this dreaded party business anyhow? I may have to start using this as my byline. Put me in as a standby.

(from Alan Moon, 8-19-78):

Mr. Roy Smith
Corresponding Secretary,
Bergen County Strategic Games Club
64 Addicks Rd.
Westwood, N.J. 07675

Dear Mr. Smith,

First of all, what name do you use when checking into a motel? Secondly, I wish I had your typewriter! Thirdly, is Rubinelli really still alive?

The proposed softball game got a lot of favorable reaction from the masses, but nothing was organized. John Caruso and Denis Azosta especially expressed great interest. Suggest you call Dennis (384-5930) or Bob (287-5139) about it, since I am not really interested and will not follow up. I think it will be hard to get all our guys together on one day, but you can try. Us dull guys, you know. The married ones would probably need notes too.

Lastly, where is Alan Rowland and WARMONGER? Has he finally drowned in his mug? Has he finally pushed Brian too far? Does his mother let him chew sugared gum? Is he really the illegitimate son of Barbara Walters, or was he, in fact, the first test tube baby? And, does he use Scope, yet? If not, be a friend, and tell him?

Post lastly, remember that cock-a-leekie and cockamamie are not fatal.

Very sincerely,

* I typed this myself,
since my secretary was
busy

Alan R. Moon
Witty person
Honest Diplomacy player
Newsletter Editor, JVA

ARM(left)

((To give a little background to this letter: At the begining of this summer Alan Rowland and myself started talking about playing the Jersey Vargamers (Another local games club) in a softball game. After getting nowhere by just talking about it, Alan Moon suggested that I send a FORMAL letter to Bob Beardsly, their president. I did so, and this is the reply I got.))

(from Arnold Vacts, 8-12-78): Dear Roy:

Enclosed is \$2.00 for sub fee. Please put me on you standby list for Mensa and "Expert" games.

Was excited to hear that you are requesting players to not only query you regarding whom to ally with, but also to ask you for the other players orders in advance so we can more easily figure out our best strategy (B+R #4, page 4, para 7, last line). Therefore, I request

August 28, 1978

this special service for any games I may be in. Don't you think this list should be kept secret? After all, it might put up players on your special list at a disadvantage if other players knew who was being fed the orders in advance. Also, perhaps you could boot players who won't ally with us from the game.

Fondly Fantacizing,

Arnold

(from Arturo Guajardo, 8-13-78): Dear Roy,

I have never doubted that you would serve as an honorable gamemaster. You have proved this in the games you administered in Rowland's Warmonger, and long association with you over the past year has convinced me of your upright character in these matters. Certainly, one who has used his publication as a forum for Gamemaster ethics demonstrates his concern and recognizes the importance of the subject.

However, I do not feel that you should have printed Mr. Nielsen's letter.

Granted, your reaction to the letter was proper and just, but the action you took was, in my opinion, a tad extreme. I agree that the gamemaster should not involve himself in the game to such an extent that he is tampering with the alliance structure by giving out asked for or unasked for "advice." Perhaps Bill should not have asked the question, and certainly you should not have given him an answer. But consider, that by publishing his letter you have indeed influenced the course of the game which is the very reason the gamemaster should not have answered the letter.

I don't know how exactly this will affect the course of the game. That can probably be answered best by France and Germany and perhaps Russia and Italy (As Austria, I am somewhat removed from this particular controversy, though I do not doubt it will affect me indirectly in the long run).

I think a more reasonable course of action would have been to send Nielsen a private note explaining your position and asking that he refrain from future inquiries of this nature. Or, if you wished to use his letter for illustrative purposes, you could have printed it, deleting specific references to names, countries, and games, or anything that could be used to identify the writer. This could have saved Mr. Nielsen unnecessary embarrassment, explained your position to the world at large, and still have eliminated any possible charge of interference in the game.

I doubt that the printing of the letter is a serious matter, at least not so serious that it would end Bill's chances of winning the game. He may have to put a good deal more effort into his diplomacy or alter his game plan somewhat. The letter has been printed and that fact is unalterable. It is the players that must decide how it will affect the game, if at all.

In any event, it is my belief that you are a completely just and honorable gamemaster, though I believe that perhaps you acted a little over-zealously in this particular matter. Looking forward to the next P&R.

Best regards amigo,

Arturo R. Guajardo

ATUMTATUMCHOOOOPOORDITANDATUMTATUMCHOOOOPOORDITANDATUMTATUMCHOOOANTHEYF

August 28, 1978

Some of you out there may know that I am active in the 'Save the Whales' campaign sponsored by the Center for Environmental Education. I have circulated petitions, collected contributions, written letters to congressmen, foreign consuls, and in general done lots of things to get myself a file in the F.B.I. and C.I.A. headquarters. The other day I got a letter from the CET which I would like to share with all of you.

Dear friend of the WPF,

The United States Congress' "work barrel" interests are preparing to gut the Endangered Species Act of 1973 and we urgently need your help to stop it.

On July 19, the Senate voted to weaken the Endangered Species Act when Senators John Culver (D-Iowa) and Howard Baker (R-Tenn) rammed through an amendment to the Act that sets up a high-level committee of political appointees to be the ultimate arbiter of the existence or extermination of any species of plant or animal that is in "irreconcilable conflict" with a federal dam, highway or other "work barrel project".

In recent months, the snail darter - a small 3" fish - has been the subject of one such "conflict", resulting in a Supreme Court fight which saw the Court rule against the construction of the ill-conceived Tellico Dam - and in favor of the snail darter - because it would destroy the habitat of this endangered species.

Angered at the Court's apparent protection of wildlife, the Senate's Environment and Public Works Committee has reported out a bill which places more concern on "work barrel projects" than preserving any endangered species or its habitat. In effect, they want to change the Act to ensure that "development" interests will not be ruled against, again.

If the Act is weakened, hundreds - even thousands - of endangered mammals, fishes, birds, amphibians, reptiles, mollusks, crustaceans, and other species will be in immediate jeopardy of extinction to satisfy man's short-term economic interests. We can't let that happen.

This is not just a fight to save the obscure species of plants and wildlife which are virtually unknown to most of us. Rather, it is an attempt to save the Southern bald eagle (less than 700 left), the bowhead whale (less than 2500 left), the grizzly bear (less than 900 left), the Eastern timber wolf (less than 1000 left), the Florida panther (less than 100 left) and countless other species whose existence and habitat preservation are immensely important to our lives.

You can help us head-off any weakening of the Endangered Species Act by doing the following:

1. Write a letter immediately to the member of Congress whose name appears on the enclosed postcard and urge him to fight any attempts at diluting the Act. Feel free to use the thoughts expressed in this letter and just put them in your own words. In this election year, members of Congress need to be reminded that a large conservationist constituency exists, too.

If you don't have the time to write a personal letter, or if you want to underscore your concern, mail the enclosed, pre-addressed postcard.

2. Send a letter to the editor. We have focused on several of the most influential newspapers in the country in the hopes of enlisting their support, too. Please write a personal letter to them outlining your concern about weakening the Act and urge them to take an editorial stand in favor of the existing law. Your pre-addressed postcard to the editor is another means of demonstrating that thousands of people, like yourself, are deeply committed to the cause of wildlife protection.
3. Encourage your friends to join with you in this letter writing campaign. Congress is susceptible to public pressure, so we must let them hear from us. The "work barrel" lobbies are hard at work to destroy the Endangered Species Act. We must fight them now.

Please don't delay in writing. Congress will return from recess after Labor Day and a vote could come anytime after that.

Thank you for your assistance.

Sincerely,

William J. Kardash
Whale Protection Fund

P.S. Since the Act was passed in 1973, over 5, 200 potential or actual "conflicts" have arisen and all but 1 - the snail darter/Terlico Dam controversy - have been resolved through mediation, negotiation or compromise. To set up a high-level "committee" as the Culver-Paker bill proposes, is not only unnecessary, it is dangerous because it makes the future of wildlife susceptible to the whim of the "work barrel" special interests. You can help save our wildlife. Send your letters today.

P.P.S. Don't forget to call or write your own congressional representative, too. We'll need all the help we can get when the Endangered Species Act reaches the House floor for a vote.

Thanks,

WJK

The references to the postcards require some explanation. Along with the letter came two pre-printed, pre-addressed postcards just needing stamps expressing the views in the above letter. They were addressed to Congressman John E. Murthy, Chairman, Committee on Merchant Marine and Fisheries, 2187 Rayburn House Office Building, Washington, D.C., 20515 and to Seymour Topping, Managing Editor, New York Times, 229 West 43rd St., New York, N.Y., 10036. People in different parts of the country got cards addressed to the editor of their local major paper.

Those of you who want to help, please write to your Congressman, and let them know how you feel on this issue. If you do not live in the U.S. you can write to Mr. Murthy anyway. If you would like more information please write to the Center for Environmental Education, 2100 M Street, N.W., Washington, D.C., 20037 or call them at (202)-466-4996. If you really want to get involved, let me know and I will send you some save the whales petitions with your next issue.

Starting with this issue, I am using the revised ROMAN notation, with minor modifications. The number in slashes between the country name and the player name is the number of units that country has on the board. In most cases this number is the same number as the number of Supply Centers the country owns. If for example, the country has more centers than units is will be indicated like this: '/4, 1short/' meaning 4 units, but owns 5 centers. CAPITALS indicate the final resting place of the unit. Underlined orders or parts of orders fail. Some common abbreviations are: OTB, Off The Board. ann, Annihilated. S, Supports. R, Retreats to. H, holds. C, Convoys. nso, no such order. nsu, no such unit. imo, impossible order. The equations in the Winter Adjustments beg explanation also. They are of the form: A=B(+/-)C. 'A' is the number of centers currently owned. 'B' is the number of units currently on the board. 'C' is the difference between the two: the number to be build to removed. 'Home' referse to the countries original centers. Centers in CAPITALS indicate that those centers were gained during the current year. Centers crossed out (ex. ~~4~~) indicate that those centers were lost during the current year. If you have any questions regarding my system of notation, please feel free to ask.

INTIREPOFALITISBLINKEREDPHILISTINEPICIGNORANCEYOURLOODYMASONSMOULTLETH

I have F'01 builds on file from Austria, France, Italy. I have S'02 orders on file from Italy. I have General Orders on file from France. I have permission to call collect from Messrs. Oaklyn and Kovalcik. Since it is a free call, I will call Mr. Tomcufoik too. If you are not on the above list, then I have no NER protection from you. Please note Craig Reges's COA (see address list elsewhere this issue)

My standby list consists of the following gentlemen: Richard Kovalcik, Bill Newell, Bill Nielsen, Brian Bently, Craig Reges, and Jack Foster. Tim Hart asked to be taken off the list because I implied that he was not worth his weight in cattle dung as a Diplomacy player last issue.

Deadline for F'01 is Friday, September 15 at 10:30 PM by both mail and phone.

This is going to be the last big issue for a while, I'm afraid. School starts again Sept 7, and I am not going to have much time to put out this mag. I am going to be taking 18 credits this semester, and working part time in the computer center at school. I hope that I won't regret inflicting such a heavy load on myself. I though I had learned my lesson last semester, but then again, maybe it's just the masochist in me. From here on in (at least until Christmas break) I am going to be putting out 4 page issues, mostly. I will try to get out an occasional 6 pager, but not unless I can find the time without sacrificing my grades, like I did last semester. Right now I have a 2.9 G.P.A., and I would really like to see that become a 3.0+ again. The difference between a 2.9 and a 3.1 may only be the difference of one letter grade in one of your courses, but even though, objectively, they are rather close, subjectively there is a whole world of difference. That last sentence could do with a little work, but right now I am just trying to get to the end of this page without leaving it blank, so I don't care about grammar too much.

By public acclamation, the plural of Standby is Standbys, and the present, or present participle is standing-by. Who gives a shit. Horay! The end of the page!!

The consumer service cards enclosed this issue are brought to you courtesy of the U.S.P.S. The post office near where I work had a big pile of them on the counter, so I took some to include in Brew And Reefer. If your copy of Brew And Reefer has not arrived 2 weeks after the deadline, write me and let me know. If I have mailed it out, then use the enclosed card to complain to the post office, whatever good that will do.

Please note the COA's for Alan Rowland and Craig Reges in the mailing list.

Press is encouraged (Bernie, do you want me to print yours next issue?) I pay \$1.00 per page for original articles.
